

## **Topics**

### **Main Topics**

1. Diagnostics and Imaging
2. Spine and Pain
3. Osteoarthritis
4. Patient Management and Innovations
5. Arthroplasty
6. Joint Injury
7. Orthogeriatrics
8. Trauma Management
9. Complications and Comorbidities

### **General Topics**

10. Foot Surgery
11. Arthroscopic Surgery
12. Rehabilitation
13. Disaster and Military Surgery
14. Pediatric Orthopaedics and Traumatology
15. Conservative Treatment
16. Polytrauma
17. Safety Culture in Orthopaedics and Traumatology
18. Rheumatology
19. Tumor Surgery
20. Health Services Research
21. Varia

### **Basic Research**

22. Biomaterials and Implants
23. Biomechanics and Movement Analysis
24. Fracture Healing and Bone Metabolism
25. Inflammation and Sepsis
26. Musculoskeletal Regeneration
27. Polytrauma and Shock
28. Joint Pathophysiology
29. Soft Tissue and Tendon
